Devices

ZATS/II

The ZATS/II Socket is an addressable device that can be surface or flush mounted and is equipped with LED indication which light up when called from the main panel.

To compliment the socket, the ZAHS/II extension handset can be used and by plugging the handset an automatic call is made to the main controller.

ZATS/II

ZAT/II

The ZAT/II is an addressable telephone handset, the address is set by an integral dip switch. A call is automatically made when the handset is lifted and an integral buzzer will ring when called by main controller.

ZAT/II

ZAHS/II
