Remote LED Indicators

## (MKII-RL/C & MKII-RL/W)

MKII-ARL/C

MKII-ARL/W

Description

There are two models for the Conventional Remote LED Indicator, a wall type MKII-RL/W and ceiling mounted type (requires a base) MKII-RL/C.

Each unit has 2 LEDs that light up to indicate an alarm. It has the 8 LED appearance to keep it's family identity.

The MKII-RL/W is supplied with a backbox for surface mounting. It is also available without backbox for flush fitting.

Features

✓ Each indicator can be programmed for one device or up to 12 devices

✓ Each indicator will be connected directly on to the detection loop

Technical Specification

Model	MKII-RL/W	MKII-RL/C
Part No.	48-032	48-031
Quiescent Current	450µA	450µA
Alarm current	2.10mA	2.10mA
Dimensions (mm)	(W) 85.5 x (H) 85.5 x (D) 60	(Dia) 100 x (D) 40
IP Rating	IP43	IP43
System Voltage	17 to 28 Vdc	17 to 28Vdc
